

WDDP Weekly Update - 9/3/24

What they're saying

- Opposition accounts on Friday are attacking VP Harris over last week's CNN interview - the decision for Gov. Walz to join her in the conversation despite a joint interview being the norm for a ticket post-convention, framing her policy positions as "radical," and blaming her for perceived "failures" of the Biden administration.

What we're saying

- We are contrasting Harris' and Walz's priorities against those of a second Trump administration.
 - In her interview, Harris emphasized: she comes from and will fight for the middle class; she's prioritizing an "opportunity economy"; and she and Walz will protect reproductive rights and IVF.
 - She called Trump out for: dividing the country; supporting abortion bans that threaten IVF; and killing a bipartisan border bill for political reasons.
- **We're not acknowledging attacks on Harris's identity.** As she herself said, "Same old tired playbook. Next question please." Instead, we're emphasizing that she is the right person for the job for all Americans.
